His or her possibilities

His or her maturity and expressive capabilities

His or her familial and social environment together with a privileged scholastic environment

Where the child learns to respect him or herself and one another.

Our small class sizes (15-20 students) allows us to offer the following:

- ✓ A pedagogically competent, qualified and motivated personnel
- ✓ An active education based on the autonomy of each child
- ✓ A personalised educational plan that respects the child's rhythm
- ✓ and personality with strengthened academic programs
- ✓ A completely bilingual (French/English) education
- ✓ A music program: percussion from the age of two
- ✓ Piano and music theory from the age of 4
- ✓ Sporting activities (baby gym, health and nutrition, swimming...)
- ✓ Outings: ski classes, field trips...
- ✓ Day care
- ✓ Mini-club: Wednesdays and during the school vacations

A BILINGUAL FRENCH-ENGLISH EDUCATION

The success of our students depends on their capacity to communicate in the relevant language including english. Therefore, our role and our mission as a Bilingual International School are to teach and expose our students to various cultures.

In a bilingual climate, the children learn naturally with English-speaking teachers. The immersion program starts as early as the age of two. The practice of the English language is therefore daily and the instruction time is shared with the French language: 50% French, 50% English.

The Academic French Program is reinforced, as the academic level of the school is high. We insure an individualised education offered by competent instructors and in small class sizes.

ENGLISH SPEAKING CHILDREN – FRENCH SPEAKING CHILDREN

Children without any French Language experience are welcome. Individualised courses will be organized to facilitate the integration of each child.
